

RESEARCH & DEVELOPMENT CUM CONSULTANCY POLICY

(Approved in the 19th Governing Body meeting held on 06/01/2020)

GOAL:

To foster an environment of open inquiry and academic freedom in which individuals can pursue scholarly activities.

POLICY

Adopting proactive mechanisms which promote and encourage research. It has an organizational structure at departmental levels that encourages younger faculty and students to involve in active research.

- Each department is divided into groups as per various specializations. Along with the senior Professor, a few other senior faculty of that division act as Lead Faculty and act as mentors to other faculty of that division and guide them in their academic pursuits.
- UG & PG students are encouraged to take up research-oriented projects for dissertation. The students are financially supported to attend/participate in conferences and present their research work.
- The faculty are encouraged to register for Ph.D. through external registrations in various Universities. Incentives in the form of sabbatical/study/on-duty are provided to the faculty pursuing Ph.D.
- The faculty is issued with no-objection certificate from the principal for doing research work and also faculty is given special permission to utilize the resources of college as their requirements
- Research is promoted by:
 - i. Providing seed money to the faculty to carry out research,
 - ii. through faculty incentives for publications in journals,
 - iii. providing financial assistance for attending/organizing conferences as well as for patenting, as per the norms of the institute.

Interdisciplinary research is promoted among various departments.

College is looking for collaboration with leading National/International Institutes / Industries to strengthen research and developmental activity.

Offering monetary benefits to faculty involved in consultancy as per the college norms.

Providing necessary support to faculty to visit industries to work on specialized areas as per the demands of industries.
